OBJECTIVE

Results driven individual that gives his best in any situation and goes above and beyond to stand out.

EDUCATION

Brigham Young University-Idaho 9/2021 ~ 4/2023

BS in Software Engineering GPA – 3.493

Salt Lake Community College 9/2018 – 8/2021

Computer Science GPA – 3.15

WORK EXPERIENCE

Data Migration Specialist 4/2023 – Present

SimpleConsign, Columbia MO

- Assisted customers in moving their data from their old software to SimpleConsign.
- Used Java to update and write new code that converted data from a csv to the correct format needed for our software.
- Improved efficiency of moving data to our store by 80% in the first 6 months.

Software Engineer Internship 9/2022 ~ 2/2023

Bullfrog Spas, Herriman UT

- Communicated with the marketing team and designers to gather requirements for the project.
- Used Visual Studio, Unity, and C# to develop an interactive kiosk.
- Developed features for the kiosk including UI/UX flow and content using menu animations, procedural movement, shaders, etc.

Software Dev Team Lead 11/2021 – 1/2022

Indie Game Academy, Online

- Led a group of five previously unknown individuals to develop and publish a game in three months.
- Guided the software development lifecycle from design to delivery.
- Divided up responsibilities based on personal interviews and set up regular meetings.
